

Year-End Opportunity To Help Lyndon B. Johnson Hospital (LBJ) Neonatal Intensive Care Unit Level III (NICU), High Risk Nursery Level II, Labor and Delivery, and Mother and Baby Program.

As you plan your year-end charitable philanthropic efforts, based on an altruistic desire to improve human welfare, we hope you will consider the Harris County Hospital District Foundation (HCHD Foundation).

The HCHD Foundation through its philanthropic efforts is raising funds and awareness for Harris Health System - Lyndon B. Johnson Hospital (LBJ) Neonatal Intensive Care Unit Level III (NICU), High Risk Nursery Level II, Labor and Delivery, and Mother and Baby Program. This program provides care for mothers and comprehensive care of their infants of all gestational ages with mild to critical illness or requiring sustained life support.

However, this program is in great need of the latest state of the art equipment to continue to provide high quality, safe, and evidence based care to the infants and families of Harris County.

The equipment includes:

- ✓ wall mounted screens for installation in the NICU. These screens will supplement on-going infection prevention initiatives and assist in providing patient privacy; and
- ✓ modern open cribs that will optimize patient safety and enhance the well-being of the mother and baby promoting parental involvement, skin to skin, breastfeeding at the point of care, and keep the baby close to the mother in the event of needed intervention.

Studies report major benefits with constant skin to skin contact with mother and baby at all times.

Knowing this, would you be willing to make a special year-end donation in support of **the** latest state of the art equipment to continue to provide high quality, safe, and evidence based care to the infants and families of Harris County, Texas? We simply can't do it without you. Your support will make a real, lasting impact in the lives of those infants and families who are in need.
