Theme: Embracing Patient Safety and Nursing Scholarship through the Lens of Population Health.

Purpose Statement: The INSPIRE Nursing Symposium provides an interactive forum for exploring innovative and integrative tactics to empower nurses to work toward improving community health and safety for a variety of underserved and vulnerable populations using clinical inquiry.

Objectives: Upon completion of this symposium, participants should be able to:

- Delineate strategies that emphasizes an interdisciplinary evidenced-based approach to all components of health care delivery to enhance patient-centered care and patient safety.
- Understand social determinants of health and discuss evidence-based practice tactics to address health disparities through changes in attitudes, beliefs, education, research, advocacy, and policy.
- Explore how the pursuit of innovative, nurse-led, evidence-based discovery and transdisciplinary integration can improve population health.
